Cows Tread More Easily with: Healthy Hooves®

Dairy Farmers can benefit from the use of **Healthy Hooves Plus™** a compliant innovative footbath solution, for use in walk through foot baths both Automatic fill and Manual.

A low pH buffered product that reduces the acidity of water to a value of 2, yet it is safe when in contact with both human & animal skin. In addition the formula has a blend of minerals, cleansers and antiseptics.

The low pH maximizes the available chelated minerals, increasing the effective cleaning of the hooves, while increasing the life of the bath and the number passes by up to 500 cattle in a 200 litre footbath.

Healthy Hooves Plus™ can also be used in automatic spray dosing system as well as backpack sprayers.

Fast acting, Easy to use & Safe

Healthy Hooves®
